SIYABONGA ZINDELA

Junior Software Developer

LinkedIn profile | 065-820-9974 | Portfolio website | siyabongazindela@outlook.com | GitHub

PROFESSIONAL SUMMARY

Final-year ICT Applications Development student at Walter Sisulu University with a 79% academic average and a solid foundation in Java, object-oriented programming, RESTful APIs, and SQL. Interested in building reliable software solutions and solving real-world business problems through technology. Gained hands-on development experience through academic and personal projects, applying Java, Spring Boot, JavaScript, HTML, CSS, and relational databases to build web-based applications. Familiar with backend development, database integration, application design, and version control. Also gained exposure to professional software development practices through job shadowing at Hirt & Carter. A motivated and adaptable aspiring software developer who enjoys learning new technologies, collaborating with others, and continuously improving technical skills.

CORE SKILLS

Backend: Java, C#, Spring Boot, RESTful API Design, Spring Data JPA, CRUD Operations, Exception Handling

Data & Persistence: MySQL, SQL Query Design, Database Integration

Frontend & Design: HTML5, CSS3, JavaScript, Figma (UI Prototyping), Responsive Design

Tooling & Workflow: Git & GitHub, IntelliJ IDEA, Postman (API Testing), Agile / SDLC

Consulting Mindset: Problem-Solving, Client Communication, Stakeholder Requirements, Technical Documentation

EXPERIENCE

Hirt & Cater – Developer Job Shadowing *July - 2026*

C# · SQL · Angular · Typescript · Tailwind · Azure DevOps

- Shadowed the software development team and gained practical insights into a professional software development environment.
- Observed Agile ceremonies, including daily stand ups, sprint plannings, sprint refinements, and collaborative sprint retrospectives.
- Leant how developers use Azure DevOps, Git & GitHub for version control, branching, code revies, and collaboration as a team.
- Gained exposure to modern technologies, including Typescript, Angular and Tailwind CSS.
- Developed a better understanding architecture, coding standards, debugging, and best practice for building maintainable applications.
- Collaborated with experienced developers asked technical questions and deepened my understanding of software development life cycle in a commercial setting.

PROJECTS

BCC - Municipal venue booking system *GitHub Link*

Java · Spring Boot · Spring Data JPA · SQL Database · RESTful APIs · Git

- Designed and developed a web-based Municipal venue booking system to digitise and streamline hall rental operations.
- Implemented role-based access and functionality for residents, administrators, clerks, cashiers and venue caretakers.
- Developed booking management workflows covering booking submissions, hall availability, approvals, rejections and booking status tracking.
- Designed and integrated a SQL Server database to manage venue information, user accounts, bookings and related records.
- Implemented backend functionality using Java and Spring Boot, following a layered architecture (Controller-Service-Repository).
- Worked on integrating PayFast sandbox payments to support online booking payments.
- Collaborated on requirements gathering, system design, documentation and preparing the application for deployment within the municipal environment.

EDUCATION

Walter Sisulu University *2024 – Present*

Diploma in ICT- Applications Development

- Relevant modules: Development Software, Technical Programming, Information Systems, Computer Architecture
- Maintained an academic average of 79% throughout my studies.
